No Sunday Harvesting

Secretary of Lord's Day Alliance
Visits Bow Island.

Rev. C. H. Huestis, Secretary of the Lord's Day Alliance, was in Bow Island last week looking into conditions in this district.

Mr. Huestis stated that over the great extent of the Province there had been but little Sunday harvesting this year, and that Alberta was probably the leading Province in the dominion in the matter of the observance of the Sunday law. This was largely due, he thought, to the friendly way in which the Alliance had dealt with offenders, especially those in the farming communities.

It was not the policy of the Alliance to advise prosecution if the end in view could be obtained in any other way. But it was important that people in Alberta should recognize that the Sunday law was by no means a dead letter.

Asked how the south compared with the north in the matter of Sunday work at this season, Mr. Huestis said that the comparison was very much in favor of the north, there had been a considerable number of complaints, especially from along new lines of railway and in the extreme east and southeast. In all cases reported a warning had been issued, and in a few flagrant instances prosecution had been advised.

Asked as to the matter of permits which was still had been given by the Attorney-General and other officials to do harvesting or threshing on Sunday, Mr. Huestis said he had heard of such permits but had never seen one. It was quite certain that such permission had been given by the Attorney-General, who had more than once stated that he had no power to grant such, and it was any other official had done so he had exceeded his duties in a serious way.

The Attorney-General had recently told the Secretary that all Sunday threshing reported to him would be dealt with by the law, and requested that this be made public. Mr. Huestis thought that occasionally there were cases of real necessity, not on the part of the threshing outfit, but on the part of the farmers this year owing to the very heavy harvest and the inclement weather earlier in the season.

He thought due consideration should be given to such cases, but this should not be made an excuse for Sunday work when there was evidently no necessity. He had the greatest respect for the farmers, and there were not a few of them, who would rather take a risk of loss than break a law both human and divine. The farmer was often at the mercy of the thresher, and under such circumstances Sunday work was done. In such case Mr. Huestis had the opinion that the real offender should be dealt with in a severe manner.

WHY NOT A REST ROOM

Is seems somewhat strange that rest rooms or comfort stations are not more generally provided in villages and small cities into which families and their families drift daily. We must realize why children stay with them, are often inconvenienced by lack of such places. When tired with the shopping and oftentimes affected by bad weather, the existence of some room where they can remain alone or by themselves would indeed be a boon. Regarded from a humanitarian standpoint they make greatly for convenience and health, especially as a business place can be open to popular trade to trade in a town where such privileges are found.

To be sure, the cost of providing and maintaining such rooms is considerable, yet nothing to what is often expended on institutions or events which have no value or at the best only a passing value.

The matter of a rest room is another matter that should be dealt with by the Board of Trade whenever this or that association can get together.

Distribution of Seed Grain and Potatoes.

By instructions of the Hon. Minister of Agriculture a free distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples will consist of spring wheat (about 5 lb.), white oats (about 4 lbs.), barley (about 5 lbs.), and field peas (about 4 lbs.).

A distribution of potatoes (in 3 lbs. samples) will be carried on from several of the Experimental Farms, the Central Farm, at Ottawa supplying only the provinces of Ontario and Quebec.

Each application must be separate and must be signed by the applicant. Only one sample of grain and one of potatoes can be sent to each farm. If both samples are asked for in the same letter only one will be sent. Applications on any kind of printed form cannot be accepted.

The destruction by fire of the central building at Ottawa, which contained grain-cleaning machinery and a large stock of seed grain for distribution, may make it necessary to curtail the distribution to a certain extent. We shall do as many as possible of the applications which conform to the rules; but requests received after the end of December will probably be too late. Samples cannot be sent in response to applications (no matter when received) which fail to state clearly the needs of the applicant, his experience in crop-raising, and the character of the soil on which he intends to sow the seed.

All applications for grain and potatoe from the provinces of Ontario and Quebec for potatoes should be addressed to the Dominion Experimental Farm, Central Experimental Farm, Ottawa. Such applications require postage. If otherwise addressed, delay in delivery may occur.

Applications for potatoes from stations in any other province should be addressed (postage prepaid) to the Superintendent of the nearest branch Experimental Farm in that province. J. H. Grisdale,

Director, Dominion Experimental Farms.

Important Rule for Elevators.

At the end of the sitting of the Canadian Grain Commission at Winnipeg last Friday, Chairman McGill made the following ruling:

"The statements of the Alberta Pacific Grain company have made it necessary for the commission to require them to show that 11 coats per bushel is a sufficient charge for the general handling of grain in country elevators."

The other elevators and producers evidently as to why they consider grain cannot be properly handled for less than 11 coats a bushel.

"Any elevator company must have the usual privilege of the commission to reduce their charge at any point below 11. Otherwise the tariff on their whole line of houses will be reduced to the low rate which they have used at any one house. With regard to special tariffs for special conditions the commission has done nothing this year, but will take the matter up in connection with the tariff for another year."

"With reference to the charges of the commission to reduce their charge at any point below 11. Otherwise the tariff on their whole line of houses will be reduced to the low rate which they have used at any one house. With regard to special tariffs for special conditions the commission reserves its judgment in this matter for further consideration."

Chairman McGill further announced that companies that had been breaking the tariff rule would be given until November 10 in which to secure permission for any reduction of rates.

The commission, this morning took up charges made by the Saskatchewan

war Co-Operative Elevator company, the Alberta Farmers Co-Operative Elevator company, and Blackmore and Miles, regarding cutting of the rates at country elevators. The commission had received admission from a number of the companies so charged, that they had set out rates. The complaint was laid under section 222 of the Canada Grain Act.

The Rev. Mr. Isaac, of the Southern Alberta Mission, arrived here on Tuesday from Cardston to take over the work of Rev. W. S. Tyers, who had charge of the Burdett and Grass Lake districts. Mr. Isaac, it will be remembered, had the unfortunate experience of being a passenger on the *Hasperian* when she was torpedoed by a German submarine a few months ago off the coast of Ireland. He with others managed to escape by clambering on to a capsized boat. Everything he possessed was lost with the steamer and it was necessary for him to return to England and re-stock previous to attempting a second trip to Canada.

TO OUR SUBSCRIBERS.

The Review would consider it a great favor if subscribers would only promptly attend to the settlement of their subscription. Over 100 of these accounts were sent out more than a month ago, but the response so far has not been very encouraging. If subscribers would only remember that this paper is largely depending upon their financial assistance to settle our own accounts, we are perfectly sure that the amount due would soon be forthcoming.

Gordon Connor of Spokane, Wash., is visiting his brother, Mr. O. Connor, Miss May Connor, who has been visiting him, returned home with him.

On Thursday the 21st inst., an address was given in the Presbyterian Church by Rev. Thomas W. Bateman, Methodist Missionary from West China. There was a good attendance and the address was listened to with interest.

Mr. Bateman gave a very vivid picture of the progress China has been making during the past few years and paid a warm tribute to the practical, industrious and the peace-loving character of the Chinese.

The Wheat Market

Buy All Interests to Assist the Farmers to Market His Wheat

Slowly

The wheat market says the Grain Growers' Guide is very seriously affected by the increased importation of foreign grain and adverse conditions of sterling exchange, which eventually results in a general depression in the market.

The Guide advises farmers to be more careful in buying grain, pointing out that a good price for wheat is of more importance even than a large quantity. The realization of cost at whatever the market price is important, and the review tendency and cooperation on the part of cereal dealers in helping the farmer is also important. The following arguments are worth consideration:

"It is in the interest of every farmer in Canada to see that the price of wheat in Canada is the highest which will go, but where it will give a fair profit to the farmer, and not more. It is better for more than anybody else by holding the price of wheat in Canada, to give him a chance to earn a living, and to give him a chance to help the farmer to hold his wheat if it is necessary to have the advantage of a little extra in order to enter business interests. This is the time when the bankers can afford to take care of the farmer, and the farmers who are holding their wheat on the rail or on farms, and who have paid all out will have nothing to lose by a generous policy and the implementation of the new legislation, and a great deal by not pressuring us for payment. It is the interest of the grain dealers, of these interests, that should look after their security, and should not interfere with the grain dealers without forcing the farmers to dump their wheat on the market. The grain dealers have a part in the campaign to induce farmers to sell a large amount of wheat, and they have produced the largest crop in our history. That will appear on the market in the western wheat crop for export and the price will be determined by the world market, and not single factor in the commercial life of the country. A difference of 10 cents per bushel in the price of wheat means a difference of \$15,000,000. It is in the interest of the grain dealers, and the welfare of this country, to start to assist the farmers in maintaining the price at a reasonable level."

Ask for Generous Support**An Appeal on Behalf of the National Canadian Patriotic Fund**

We have now entered upon the second year of the war, and we are as far as ever off as ever. No one imagined that the war would last so long. In 1915, Canada would have sent across the Atlantic nearly one million men, and we have had to move to follow if necessary. This magnificent effort, while primarily directed against Germany, has also been, in a large measure, made possible by the Canadian Patriotic Fund.

This greatest of all the national honours has been given to the thousands of families of men who have enlisted for overseas service. These men have given up their homes, their assurance that the people of Canada would care for their wives, their wives, widowed mothers and little children shall be maintained until the day when the war is over. Upon the fund is assuming large proportions, that to meet the needs of all the men who have enlisted, and that the reserves are being maintained, and the executive committee finds it necessary to make a further appeal to the public.

There are many funds, most of them worthy, but of them all, the Patriotic Fund is the best, and the most patriotic.

No other organization in the national authorities give to the Patriotic Fund, the same amount of money, the same patriotism and generosity of our own people. Thousands, of brave men are fighting for us, and we must do our best to meet what we said when we told them as they went forward, and we must do our best to help and kindle it would be to our everlasting disgrace.

The national organizations, with headquarters at Ottawa and branches throughout the Dominion, are worthy of our most genuine respect. In the true spirit of self-sacrifice, they have undertaken,

Ode to a Car

"My auto, 'tis of thee, short cut to bowie,"

"I chain'd thee to me, and thou didst not say you refuse to go, to won't, or can't."
